

## The AINS COTS Suite for Enterprise Correspondence, eFOIA Management and ATIP Management

[Please visit our ATIPXpress main site](#)

ATIPXpress is designed specifically to provide Canadian federal government institutions with the automated ability to comply with the Access to Information Act (ATIA) and Privacy Act (PA) (together referred to as "ATIP"). ATIPXpress is a feature-rich application that automates compliance with ATIP laws, regulations and policies, and transforms the work of ATIP processing from paper, manual labor and needlessly repetitive tasks to automated processes.

[Please visit our CATXpress main site](#)

A fully automated correspondence management, Web-based application. Uses electronic folders, documents, images and workflow control. Provides enterprise correspondence management, task management, document management, records management and eRoom collaboration. Harnesses Documentum workflow and records management; runs on Oracle or SQL.

[Please visit our FOIAXpress main site](#)

The most comprehensive, Web-based, COTS application available for processing Freedom of Information Act (FOIA) and Privacy Act (PA) requests. Now in use by over 30 government agencies, FOIAXpress is rapidly gaining recognition across the Federal government as the best-value e-FOIA solution.

### Professional Version

Professional batch scanning solution; integrates with FoiaXpress, CatXpress and Documentum. Powerful features for image clean-up and enhancement -- straightening crooked scans, image "noise" removal, barcode recognition, and border and image cropping

### Touch and Go Version

- Easy to use, touch-screen operation
- Ideal where there are many users not needing to use of advanced features

[Please visit our RedactXpress main site](#)

Full-feature document redaction application, with complete review and de-classification process. Works in standalone mode or integrated with FOIAXpress. Has: stamps, sticky notes, comments and strike-out; multiple color, views and redaction shapes. Streamlines compliance with the Freedom of Information Act (FOIA), Privacy Act, Health Information Portability and Accessibility Act (HIPPA), and the Openness in Government Act of 2005.

[Please visit our System311 main site](#)

System 311 is a web-based, workflow-driven, complaint management system for handling citizen requests and is fully integrated with GIS and document management systems. In addition to being a Citizen Relationship Management system, it is ALSO a case management system! With the Public Access Link, which is fully integrated with System 311, the citizens can file and track complaints directly over the web in an easy-to-use, user-friendly environment.
